

**SECTION 1: PRODUCT IDENTIFICATION**

<b>Product:</b>	Alcohol Prep Pads
<b>Product Label Name:</b>	Dukal Alcohol Prep Pads (private label included)
<b>CAS#:</b>	(Alcohol) 67-63-0
<b>EC#:</b>	(Alcohol) 200-661-7
<b>Relevant Product Use:</b>	Antiseptic Cleanser
<b>Company Name and Address:</b>	Dukal, LLC 2 Fleetwood Court Ronkonkoma, NY 11779
<b>Emergency Telephone Number:</b>	631-656-3800
<b>Contact Outside USA:</b>	+1-800-243-0741 QA-RA-NY@dukal.com

**SECTION 2: HAZARDOUS IDENTIFICATION**

<b>Hazard Class/Category:</b>	Flammable Liquid – 2 Eye Irritation – 2 STOT SE – 3
<b>Hazard Symbol:</b>	 
<b>Signal Word:</b>	Danger
<b>Hazard Statements:</b>	Highly flammable liquid and vapor. (H225) Causes serious eye irritation. (H319) May cause drowsiness or dizziness. (H336)
<b>Precautionary statements:</b>	
<b>General:</b>	Keep away from heat/sparks/open flames/hot surfaces. - No smoking. (P210) Keep out of reach of children. (P102)
<b>Eyes:</b>	IF IN EYES: Rinse cautiously with water for several minutes. (P305+P338) If eye irritation persists: Get medical advice/attention. (P337+P313)
<b>Inhalation:</b>	IF INHALED: Remove victim to fresh air and keep at rest in a

position comfortable for breathing. (P304+P340)

### SECTION 3: INFORMATION ON INGREDIENTS

Component Name	CAS #	EC #	Concentration	R Phrase
Isopropyl Alcohol (Propan-2-ol)	67-63-0	200-661-7	70%	R11
Purified Water	7732-18-5	231-791-2	Trade Secret	

### SECTION 4: FIRST-AID MEASURES

#### Emergency first aid procedures by route of exposure:

**Inhalation:** If symptoms are experienced, remove source of contamination or move victim to fresh air. If affected person is not breathing, apply artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

**Ingestion:** Do not induce vomiting. If the material is swallowed have victim drink 1-3 glasses of water to dilute stomach contents. Seek medical attention or advice.

**Skin:** If irritation is experienced, rinse with water. If irritation persists, seek medical attention.

**Eyes:** Rinse eyes with water for 15 minutes holding the eye open. Seek medical attention if irritation persists

### SECTION 5: FIRE-FIGHTING MEASURES

**Flammability Classification:** Flammable Liquid IB Extinguishing Media: Use methods appropriate for the surrounding fire. Consider water spray or fog, carbon dioxide, dry chemical powder, or alcohol resistant foam.

**Products of Combustion:** Upon decomposition this product may emit carbon dioxide, carbon monoxide and/or low molecular weight hydrocarbons.

**Fire Fighting Equipment/Instructions:** Wear protective clothing and equipment suitable for the surrounding fire, including helmet, facemask, and self-contained breathing apparatus.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

**Personal Precautions:** For large spills wear gloves, safety glasses and when levels exceed OSHA PEL use appropriate NIOSH approved respiratory protection. Keep unnecessary personnel away. Eliminate all sources of ignition or flammables that may come into contact with a spill of this material.

**Environmental Precautions:** Prevent discharge to open waters.

**Method for Containment:** Absorb spilled liquid in suitable non-flammable inert material such as clay, vermiculite or diatomaceous earth.

**Methods for Clean-Up:** Ventilate area of leak or spill. Use spark-proof tools to sweep or scrape up and containerize in approved chemical waste container. Wash spill area with water.

## SECTION 7: HANDLING AND STORAGE

**Handling:** Keep away from heat, sparks and flame. Prevent contact with eyes. Use in well ventilated area.

**Storage:** Keep the container tightly closed and in a cool, well ventilated place.

## SECTION 8: EXPOSURE CONTROLS

### Isopropyl Alcohol (67-63-0)

ACGIH: 200 ppm TWA

OSHA: 400 ppm TWA; 980 mg/m<sup>3</sup> TWA

**Engineering Controls:** Normal room ventilation is usually adequate.

### Personal Protective Equipment (PPE):

**Eye/Face Protection:** None needed under normal use – Wear goggles if exposed to unusual amount and splashing

**Skin Protection:** None needed under normal use -- Wear overalls or apron if splashing is possible

**Respiratory Protection:** Use when vapor concentrations are high or in an enclosed space. Avoid inhalation of vapor.

**General Hygiene Considerations:** No smoking. Normal hygienic practices.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

**Physical State:** Non-woven cloth saturated with liquid. No free liquid inside packaging.

**Appearance/Color:** Clear

**Odor:** Alcohol

**PH:** Not Available.

**Vapor Density:** 2.1 (air=1)

**Boiling Point:** 80°C

**Vapor Pressure:** 4.3 kPa (Isopropanol)

**Melting Point:** No data

**Freezing Point:** Not Available  
**Flash Point:** 11.7°C for 70% Isopropanol Solution  
**Solubility (in water):** Soluble  
**Specific Gravity @ 25°C:** 0.88-0.92  
**Evaporation Rate:** Not Available  
**Octanol/Water partition coefficient:** Not Available  
**Auto-ignition temperature:** Not Available  
**Decomposition temperature:** Not Available

#### SECTION 10: STABILITY AND REACTIVITY

**Stability:** Stable under normal ambient temperatures 70°C (21°C)  
**Condition to Avoid:** Avoid excessive heat or sources of ignition.  
**Incompatible Materials:** This product reacts with strong acid, strong bases, and oxidizing agents.  
**Hazardous Decomposition:** Upon decomposition, this product evolves carbon monoxide, carbon dioxide, and/or low weight hydrocarbons.  
**Hazardous Reactions:** Hazardous polymerization will not occur.

#### SECTION 11: TOXICOLOGICAL INFORMATION

##### ACUTE EFFECTS:

###### A: General Product information

Product contains isopropyl alcohol.

###### B: Acute Toxicity

Low order of acute toxicity is possible.

##### CHRONIC EFFECTS: Component

**Isopropyl Alcohol (67-63-0)** -- This product is not expected to cause long term adverse effects

**Carcinogenicity:** ACGIH A4 – Not Classifiable as a Human Carcinogen

**Neurotoxicity:** No information available

**Mutagenicity:** No information available for product.

**Reproductive:** This product is not expected to cause reproductive health effects

**Developmental:** This product is not expected to cause reproductive health effects.

**Target Organs:** When consumed, ethyl alcohol can target the respiratory system, skin, eyes, CNS, liver, blood and reproductive system.

#### SECTION 12: ECOLOGICAL INFORMATION

Solutions of alcohols are toxic to aquatic life at moderate to low concentrations. No long-term ecological effects are likely. Concentrated solutions of alcohols and surfactants may cause damage to aquatic and terrestrial plants.

Isopropanol has been shown to possess a 96-hour LC50 in freshwater fish ranging between 9640 and 10000 mg/L and a 24-hour LC50 in aquatic invertebrates of >10,000 mg/L. The 7-day toxicity threshold, approximately equivalent to the LC3, for algae was determined to be 1800 mg/L and the 16-hour toxicity threshold for microorganisms was determined to be 1050 mg/L. This substance is not considered to be acutely toxic to fish, or aquatic invertebrates, nor is it considered to be toxic to aquatic algae, cyanobacteria, or microorganisms.

Long-term toxicity to fish and aquatic invertebrates has been assessed using the Petrotox QSAR model (version 3.06), reporting NOELR values of >1000 mg/L and >1000 mg/L for Danio rerio and Daphnia magna, respectively, indicating no long-term aquatic toxicity.

### SECTION 13: DISPOSAL CONSIDERATIONS

Dispose in accordance with national and local regulations. Labels should not be removed from containers until they have been cleaned. Do not cut, puncture or weld near container. Do not incinerate closed containers. Empty containers may contain hazardous residues. Dispose of containers with care.

### SECTION 14: TRANSPORTATION INFORMATION

<b><u>DOT</u></b>	Not Regulated as Hazardous Material under DOT 49 CFR 172.102 Special Provision 47
<b><u>UN (EU: ADR/RID/ADN)</u></b>	Not Regulated as Hazardous Material under UN Dangerous Goods Ch. 3.3 Special Provision 216
<b><u>IATA/ ICAO</u></b>	Not Regulated as Hazardous Material under IATA Sec. 4.4 Special Provision A46, ICAO DPG SP A46
<b><u>IMDG/ IMO</u></b>	Not Regulated as Hazardous Material under IMDG Ch. 3.3 Special Provision 216

**Special Provisions Verbiage:** (DOT) Mixtures of solids that are not subject to this subchapter and flammable liquids may be transported under this entry without first applying the classification criteria of Division 4.1, provided there is no free liquid visible at the time the material is loaded or at the time the packaging or transport unit is closed. Except when the liquids are fully absorbed in solid material contained in sealed bags, for single packagings, each packaging must correspond to a design type that has passed a leakproofness test at the Packing Group II level. Small inner packagings consisting of sealed packets and articles containing less than 10 mL of a Class 3 liquid in Packing Group II or III absorbed onto a solid material are not subject to this subchapter provided there is no free liquid in the packet or article. (UN: ADR/RID/ADN) SP216: Mixtures of solids which are not subjects to these Regulations and flammable liquids may be transported under this entry without first applying the classification criteria of Division 4.1, provided there is no free liquid visible at the time the substance is loaded or at the time the packaging or cargo transport unit is closed. Each cargo transport unit shall be leakproof when used as a bulk packaging. Sealed packets and articles containing less than 10 ml of a packing group II or III flammable liquid absorbed into a solid are not subject to these Regulations provided there is no free liquid in the packet or article. SP313: Sealed packets and articles containing less than 10 ml of an environmentally hazardous liquid, absorbed into a solid material but with no free liquid in the packet or article, or containing less than 10 g of an environmentally hazardous solid, are not

subject to these Regulations. (IATA) Small inner packagings consisting of sealed packets or articles containing less than 10 mL of a Packing Group II or III flammable liquid absorbed into a solid material are not subject to these Regulations provided there is no free liquid in the packet or article (IACAO) Mixtures of solids which are not subject to these Instructions and flammable liquids may be transported under this entry without first applying the classification criteria of Division 4.1, providing there is no free liquid visible at the time the substance is packaged and the packaging must pass a leakproofness test at the Packing Group II level. Small inner packagings consisting of sealed packets or articles containing less than 10 mL of a Packing Group II or III flammable liquid absorbed into a solid material are not subject to these Instructions provided there is no free liquid in the packet or articles. (IMDG) Sealed packets containing 10 ml or less of Class 3 flammable liquids in Packing Group II or III which are absorbed into a solid with no free liquid at the time of shipment are not regulated.

#### SECTION 15: REGULATORY INFORMATION

##### EPA: SARA

CAS	Chemical	De Minimis
67-63-0	Isopropyl alcohol (only persons who manufacture by the strong acid process are subject, no supplier notification)	1.0%

##### EC:

Directive 2010/75/EU (VOC): 70% (Liquid Alcohol)

##### Seveso III Data:

Seveso Substance: Yes

Seveso Categories: P5a, P5b, P5c

#### SECTION 16: OTHER INFORMATION

**Issue Date:** 03-26-2014  
**Revision Date:** 09-08-2023
